Scheda Tecnica

SD SPRAY NO MUFFA

Disinfectant product

Melt mold

Description	Anti - mold cleansing product with a large spectrum of action in order to eliminate any type of mold.
Use	This product is applied on internal and external walls or in all environments with particular characteristics of mold and algae contamination. It is used directly on the wall to be treated. After about 10 minutes, it is necessary to wash with water.
specific weight	1 gr/ml
VOC	0 gr/ liter
estimated yield	About 6 - 8 m² / litre according to the absorption of the substrate
Note	Do not brush the surfaces before the treatment in order to prevent the spread of mold spores in other areas.
Application	Hard bristle brush; push on the surface to be treated to facilitate penetration in depth..
