## **QUARZO LUX EXTRA**

Made of quartz flour

Excellent washability

Resistant to the bad weather

Code 0818

Description

Finish made of acrylic resins in emulsion, photo – resistant pigments. This product has an excellent washability and a good ease in application. It lets the wall breathe, offering an excellent resistance to the bad weather.

use

« QUARZO LUX EXTRA » is used for the painting of the exterior and interior walls, constructions in reinforced concrete, gypsum, exposed bricks, and so on. In addition to exalting the resistance features, quartz allows to apply thicknesses that are superior to the normal washable paints. So it masks any imperfections of the support.

Appearance of the film

**Environmental conditions** 

Ambient temperature: from + 8 to 40° C

Temperature of the support:  $> 10^{\circ}$  C Humidity: 0 - 80 %

In order to prevent the formation of condensation, it is necessary that the temperature of the substrate is at least 3° C above the dew point.

Drying and hardening time

For the thickness of 50 micron

10°C: 3 hours Dry to touch, 8 hours in depth 20°C: 1 hours Dry to touch, 4-5 hours in depth 30°C: 0,5 hours Dry to touch, 2 hours in depth

Time of overpainting

Minimum

10°C - 8 hours 20°C - 4 hours 30°C - 3 hours

Maximum unlimited in the absence of contaminants

**Application** 

Brush, roller, spray

If you use the brush, you have to use nylon or natural bristle brushes.

If you use the roller, you have to use medium-haired rollers.

For the application, it is necessary to use the method of crossing coats.

Shelf life

2 years in a cool and dry place (max 40° C)
