

NUBILAC TRASPARENTE LUCIDO

Glossy paint

Suitable for any media

Resistente all'abrasione

Code

03010004

Description

Transparent top coat based on acrylic emulsions

Use

On wall paints to increase their resistance and protect artifacts over time

Appearance of the film

Milky liquid

Component

1

Hardening

Water evaporation and coalescence of the polymer

Specific weight

1,020 gr / ml

Volume of solids

66 gr / liter

Theoretical Yield

4.5 sqm/liter for a thickness of 60 microns dry

Preparation of surfaces

Surfaces should be well dry and free of dust and foreign matter

Environmental conditions

Ambient temperature: da + 8 a 35°C
Support temperature: > di 5°C
Moisture: 0 - 75 %

Drying and curing times

A 20°C e 65% UR About 4 to 5 hours

Application

Brush, roller, spray
For brush applications use nylon or pure bristle brushes.
For roller applications use medium-haired rollers.
For application use the cross-coat method.

Shelf life

2 years in a cool and dry place (max 40°C)

Packs

Lt. 2,5 - lt. 0,750
